Forecast For Dumfries, Galloway, Lothian & Borders
Issued by Met Office Aberdeen
at 0400 on Monday 01 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Early coastal gales in west. Frequent showers easing during afternoon.

Today:
An unsettled start to the day with frequent showers, perhaps merging to longer periods of rain at times. Northwest winds touching gale force around western coasts at first. Gradually showers easing while brighter spells develop through the afternoon. Maximum temperature 11 deg C (52 deg F).

Tonight:
Northwest winds will hold the bulk of the remaining showers across western areas of Dumfries and Galloway, while most in east stay dry with prolonged clear spells. Minimum temperature 3 deg C (37 deg F).

Tuesday:
Most parts staying dry with good bright and sunny spells and only light west to northwest breezes. However a few light showers may appear to the west of the M74. Maximum temperature 11 deg C (52 deg F).

Outlook for Wednesday to Friday:
Wednesday, Thursday mainly dry and bright but not feeing particularly mild as the winds veer north to northwest. Friday turning cloudy with a chance of some patchy rain later.
